DETAILED ACTION

Applicants response filed September 13, 2006 was received.

- Corrections to the specification are accepted.
- Amendments to the claims overcome prior claim rejections and objections.
- Claims 1-19 are allowed.

Application allowed.

REASONS FOR ALLOWANCE

Claims 1-19 are allowed. The following is an Examiner's statement of reasons for allowance:

Independent claim 1 of the present application teaches a correcting system, when a predetermined correction portion of an original data is corrected by a variant correction data, for correcting a linear block code generated by coding the original data via a data coding process, said correcting system comprising: a coding module for coding said variant correction data via said data coding process to generate a corresponding variant correction code; and a correcting module for storing said variant correction code and said linear block code generating a substitute code to substitute said linear block code. The foregoing limitations are not found in the prior arts of record. Particularly, none of the prior arts of record teach nor fairly suggest, "*...a coding module for coding said variant correction data via said data coding process to generate a corresponding variant correction code; and a correcting module for storing said variant correction code and said linear block code generating a substitute code to substitute said linear block code.*"

Art Unit: 2133

Independent claims 9 and 11 include similar limitations of independent claim 1 and therefore are allowed for similar reasons.

Dependent claims 2-8, 10 and 12-18 depend from allowable independent claims and inherently include limitations therein and therefore are allowed as well.

Any inquiries concerning this communication should be directed to the examiner, Mujtaba Chaudry who may be reached at 571-272-3817. The examiner may normally be reached Mon – Thur 6:30 am to 4:30 pm.
